Document processing

Transform your documents into actionable data with AI

The problem we solve

You need to gather and consolidate data locked in documents with different formats into a digital dataset that you can work with.

Our service

- A single use service to collect data and digitise it.
- Send the documents to us, tell us what you need.
- Consolidated output deliverable available in Microsoft Office formats (Excel, Word, or PowerPoint).

Indicative pricing

Typical service
from CHF 5'000
per document set.

Benefits

- **Fast digitisation of documents:** Process large document sets quickly. Use us for invoices, policies and more.
- **More control:** Access our platform to review extracted data against your source documents and make amendments where necessary.
- **Consolidated output:** Once you're happy, we'll export the consolidated dataset to your chosen format.
